Author Index

Volume 17

	Page		Page
Alpern, Joshua	81	Low, Alexander	75
Ayengar, Padmasini	201	Lowrence, E. W.	183
Ball, Ernest	169, 215	Macgregor, Frances Cooke	128
Chehak, John D.	45	Mead, Margaret	128
Cohn, S. H.	7	Miller, Elizabeth E.	67
Collins, Emma H.	163	Olson, Willard C.	75, 191
Eastlick, Herbert L.	45	Peadon, Annie M.	21
Elsasser, Winifred H.	111	Reimann, Stanley P.	77
Gong, J. K.	7	Reynolds, Earle L.	128
Green, Earl L.	127	Roberts, Eugene	201
Hammett, Frederick S.	77	Scheffer, Victor B.	129
Harris, Morgan	147	Schwartz, Neena B.	123
Isotalo, A.	229	Sjögren, Hakon	127
Josiah Macy Jr. Foundation	191	Sjögren, Torsten	127
Katsh, Seymour	81	Sperling, Frederick	1
Kirk, Paul L.	111	Teir, H.	229
Kuusi, T.	229	Tepper, Byron S.	81, 193
Landauer, Walter	87	White, Philip R.	79
Lindgren, Åke G. H.	127	Wilke, Ford	129
Litsky, Warren	81, 193	Zitcer, Elsa M.	111

Subject Index

	Page
Absorption spectra of barium-soluble fractions of embryonic extracts	158
Accumulation of C^{14}-compounds in callus tissues	181
Acetobacter xylinum	193
activity in defined media	197
determination of growth	196
growth medium for	195
nutritional requirements of	193
Acetobacter xylinum in medium containing amino acids	198
2-Acetylamino-1,3,4-thiadiazole-5-sulfonamide	202
Activity of fractions of embryo extracts	150
Amino acid requirements of *Acetobacter xylinum*	193
Anthropometric measurement of human body growth	165
Ash weight of bones following irradiation	14, 15
Autoradiographs of C^{14} in callus cultures	171–178
Biotin requirements of the rat	81
Body weights of control and irradiated animals	9, 13
Body weight vs. muscle weight in growing rats	123
Bone, radio-sensitivity of	7
Bone damage produced by irradiation	7
Bone growth, variables of	12
Bone length in experimental micromelia	88
C^{14}-labeled carbonate and formate, excretion and distribution of	1
Callorhinus ursinus	144
Characterization of fractions of embryonic extracts	156
Chick embryo extract	147
Chick, embryonic-avian limb grafts	45
Chick embryos	46
effect of insulin and pilocarpine on	87

Page

Conversion of ethyl alcohol to acetic acid 193
Cultivation of human tissue mast cells *in vitro* 111
Culture techniques for human mast cells 112, 113
Cyclic compounds 204
Cytoplasmic granules in mast cells 121

D-Glutamic acid 202
Destruction of striated muscle in limb grafts 47
Dialysates of embryo extracts 149
Diets, biotin content of 84

Effect of radioisotopes on growth of callus cultures 215
Effects of thiourea on limb regeneration in the tadpole 21
Epithelial changes in limb grafts 58

Fat: Organ relationships in albino rats 1, 4
Fibrosis in limb grafts 54
Fur seal, relative growth of 129

γ-Glutamyl esters 203
γ-Glutamylamides 203
γ-L-Glutamylmethylamide 202
Glutamic acid, effects on microbiological systems 201
Glutamine inhibitors 201
Glycolytic activity of fractions of embryonic extracts 152
Growth, acceleration of 201
  bone, variables of 12
  depression of, following irradiation 19
  effect of P^{32} and S^{35} on 215, 229
  effect of thiourea on regeneration 21, 42
  human body 164, 165
  inhibition of 207, 210
  reciprocal nature of, in fetus and infant 163
  regenerative 21
Growth and Culture (Book Review) 128
Growth factors, purification of 147
  " " in vinegar production 193
Growth of callus cultures on media containing radioactive carbon . . . 169
" " chick fibroblasts on crude alcoholic embryo extract 151
Growth of Children (Book Review) 75
Growth of fur seal 129
" " micro-organisms 212
" " rabbit skeleton 183
" " rat bone, effect of x-irradiation 7
" " tibiae following irradiation 7
" " transplanted embryonic limbs 45
Growth measurements of tumors 68, 70–72
Growth promoting action of embryonic extract 147
Growth rate of a rhabdomyosarcoma 67
Growth rates and comparative size of tumors 67
Genetic-Statistical and Psychiatric Investigations of a West Swedish Population (Book Review) 127

Hammett, Frederick S., memorial to 77
Histology of regenerating tadpole limbs 27, 34, 35, 39
Host-graft incompatability 46
Human tissue mast cells *in vitro* 111
Hydrazides 204

Infancy, definition of 166

Page

Influence of glutamine in response to glutamic acid 202
Inhibition of L-glutamic acid-glutamine system 202
Inhibition of secretory activity of the thyroid glands in tadpoles 40
Insulin, effect on chick embryos 87
Interspecies avian limb grafts 45

L-Glutamine and L-Glutamic acid 202
Lactobacillus arabinosus 201
utilization of glutamine by 201
Length of tibiae following irradiation 14
Local effects of irradiation 8

Mastocytoma in dogs 111
Mean body weights of rabbits 184
Mean lengths of calcaneus and tibia in rabbits 186
variation in relationship to mean body weight 188
Measurements of femur, tibiotarsus and tarsometatarsus of chick embryos
injected with insulin . . . . . 97 ff.
injected with philocarpine . . . . . 90 ff.
Measurements of five growth variates in the seal 132
α-Methyl compounds 204
Micromelia, bone length in 87
Micro-organisms, role of glutamine in growth of 212
Mirounga leonina 144
Mitosis, effect of P^{32} on 229
Mitotic counts 229
Mitotic indices in blastema 33
Mitotic phenomena in mast cells grown *in vitro* 119, 121
Mitotic rates as effected by radioactivity 231, 232
Mononuclear cells, effect on limb grafts 60
Morbus Alzheimer and Morbus Pick: A Genetic, Clinical and Patho-anatomical Study (Book Review) 127

Orbital gland suspension as a test for radio-activity 229
Organ-Body Weight in albino rats 1, 3

Pathology of transplanted avian-limb bud grafts 45
Persistence of C^{14} in a callus culture of *Sequoia sempervirens* 169
Phosphorus consumption and mitosis 229
Pilocarpine, effect on chick embryos 87
Problems of Infancy and Childhood (Book Review) 191
Protein: Organ relationships in albino rats 1, 4

Quantitative effects of x-irradiation on bone growth 19

Rabbit, relationship of skeletal growth to age and body weight 183
Radioisotope-treated cultures, morphology of 216
Rana pipiens, limb regeneration of 21
Rat, albino 1
Rat, biotin requirements of 81
Rat tissues, treated with P^{32} 229
Rats, relation between body weight and gastrocnemius-soleus muscle weight . 123
Rats, weights on biotin-deficient diet 83
Reciprocal nature of growth and behaviour in the fetus and infant . . . 163
Reciprocal relationship between somatic and integrative growth in humans . . 166
Recovery of callus tissue after radiation 227
Relative growth in the northern fur seal 129
Relative size of newborn and full grown fur seals 144
Replacement of muscle by adipose tissue in limb grafts 51
Rhabdomyosarcoma of the mouse, growth rate of 67

Page

Sequoia sempervirens 169
growth on radioisotopes 215
Skeletal growth of rabbit 183
Somatic growth of human fetus and infant 164
Straight-chain compounds 204

Tadpole, limb regeneration in 21
Thiourea, effect of limb regeneration 21
Tibiae ash and matrix weights following partial body irradiation 17
Tibiae matrix weight and irradiation 16
Transplantation of embryonic chick limbs 45
Transport of C^{14}-compounds in callus cultures 180

Uptake of P^{32} by orbital gland and liver 230
Urticaria pigmentos, mast cells in 111

Variables of bone growth 12
Vascular reactions in limb grafts 51
Vinegar production 193

X-irradiation, effect on growth of rat bone 7
